INDEX

ABDEL-SALAAM, A. and LEONG, P. C. Synthesis of vitamin B_1 by intestinal bacteria of the rat 958

Absorption, ultraviolet, and potentiometric titration curves of proteins (Holiday and Ogston) 1166

Acetoacetic acid, formation of glucose from, in rat kidney (Weil-Malherbe) 2276

Acetylating agents, action of, on amino-acids (Neuberger) 1452

Acetylcholine, estimation of (Shaw) 1002

Acetylcholine formation in brain *in vitro* (Mann, Tennenbaum and Quastel) 243

ADAMS, G. A. The nature of haemoglobin in the red blood corpuscle 646

Adenine compounds, metabolism of, by *Bact. coli* (Stephenson and Trim) 1740

Adenosine and related compounds, activation of aspartase by (Gale) 1583

Adrenaline and animal phenolases (Bhagvat and Richter) 1397

Adrenaline and vitamin C, relation between (Daoud and el Ayyadi) 1424

Adrenaline, effect of, on embryonic chick glycogen *in vitro* as compared with its effect *in vivo* (Gill) 1792

Adrenaline, estimation of (Shaw) 19

Adrenals, ox, isolation of progesterone and 3:20-*allo*pregnanolone from (Beall) 1957

Adsorption, quantitative experiments, a shaker for (Fisher and Wilhelmi) 609

Aerobacter aerogenes, phosphatases of (Pett and Wynne) 563

AGNER, K. The preparation and properties of a highly active catalase from horse liver 1702

Alboleersin and luteoleersin; metabolic products of *Helminthosporium leersii* Atkinson (Ashley and Raistrick) 449

Albumin, egg, and metaphosphoric acid, reaction between (Perlmann and Herrmann) 926

Albumin, egg, crystalline, carbohydrate component of (Neuberger) 1435

Albumin, egg, metaphosphate, crystallized (Perlmann) 931

Albumin fraction, crystallizable, of horse serum (Kekwick) 552

Albumin fraction of serum, preparation and properties of a globulin present in the (Hewitt) 26

Alcaligenes faecalis, phosphatases of (Pett and Wynne) 563

Alcohol dehydrogenase of animal tissues (Lutwak-Mann) 1364

Alcohol, ethyl, metabolism of, in animal tissues (Leloir and Muñoz) 299

Aldehydes and glucosides, effect of, in chemotherapy of cancer (Boyland and Mawson) 1982

Algae, marine, simple peptides occurring in (Haas, Hill and Russell-Wells) 2129

Alkaloids, cinchona, action of, in bird malaria (Buttle, Henry, Solomon, Trevan and Gibbs) 47

Allantoin, metabolism of, in *Lucilia sericata* (Brown) 895

ALLCHORNE, E. *see* BACHARACH, A. L.

ALMQUIST, H. J., MECCHI, E. and KLOSE, A. A. Estimation of the antihaemorrhagic vitamin 1897

Amide contents of some plant leaf protein preparations (Lugg) 2123

Amines, elimination of, in man (Richter) 1763

Amino-acids, action of acetylating agents on (Neuberger) 1452

Amino-acids and polypeptides, potentiometric determination of (Balson and Lawson) 230

Amino-acids, manometric determination of (Mason) 719; (Van Slyke) 1614

Amino-acids, reduction of, with gaseous hydrogen by suspensions of *Cl. sporogenes* (Hoogerheide and Kocholaty) 949

Amino-acids, time factor in interaction of, with sugars (Frankel and Katchalsky) 1904

p-Aminobenzenesulphonamide, use of compounds related to, in treatment of certain infections in mice (McLeod) 1770

Ammonia and other metabolites of *Lucilia sericata* (Brown) 903

Ammonia, liberation of, from proteins (Damodaran and Ananta-Narayanan) 1877

Ammonia, reduction of nitrate to, by *Clostridium welchii* (Woods) 2000

Amylase, human liver (Glock) 235

Anaerobes, strict (genus *Clostridium*), metabolism of (Woods and Clifton) 345; (Kocholaty and Hoogerheide) 437; (Hoogerheide and Kocholaty) 949

Anaesthetics, effects of, on the lactic acid content of the brain (Stone) 1908

ANANTA-NARAYANAN, P. *see* DAMODARAN, M.

ANDERSON, C. G. Chemical constitution in relation to the precipitation reactions of normal serum with lipoid suspensions 282

Androgen content of urine, colorimetric determination of (Callow, Callow and Emmens) 1312

Androsterone and *trans*dehydroandrosterone, isolation of, from the urine of normal women (Callow and Callow) 1759

Aneurin and nicotinamide, specificity of, in the growth of *Staph. aureus* (Knight and McIlwain) 1241

Anhydroglycylasparagine, enzymic hydrolysis of (Damodaran and Narayanan) 2105

Animal livers, the vitamin A_1 and A_2 contents of (Gillam) 1496

Animal phenolases and adrenaline (Bhagvat and Richter) 1397

Animal tissues, alcohol dehydrogenase of (Lutwak-Mann) 1364

Animal tissues, distribution of succinic oxidase system in (Elliott and Greig) 1407

Animal tissues, effect of bacterial toxins upon respiratory mechanisms of (Wooldridge and Higginbottom) 1718

Animal tissues, ethyl alcohol metabolism in (Leloir and Muñoz) 299

Animal tissues, *l*-(+)glutamic dehydrogenase of (Dewan) 1378
Animal tissues, metabolism of (α-hydroxyacetoacetic acid) in (Weil-Malherbe) 1033
Animal tissues, vitamin B_1 and cocarboxylase in (Ochoa and Peters) 1501
Anserine, titration constants of (Deutsch and Eggleton) 209
Anslow, W. K. and Raistrick, H. Studies in the biochemistry of micro-organisms. LVII. Fumigatin (3-hydroxy-4-methoxy-2:5-toluquinone), and spinulosin (3:6-dihydroxy-4-methoxy-2:5-toluquinone), metabolic products respectively of *Aspergillus fumigatus* Fresenius and *Penicillium spinulosum* Thom. 687
Anslow, W. K. and Raistrick, H. Studies in the biochemistry of micro-organisms. LVIII. Synthesis of spinulosin (3:6-dihydro:y-4-methoxy-2:5-toluquinone) a metabolic product of *Penicillium spinulosum* Thom. 803
Anslow, W. K. and Raistrick, H. Studies in the biochemistry of micro-organisms. LIX. Spinulosin (3:6-dihydroxy-4-methoxy-2:5-toluquinone) a metabolic product of a strain of *Aspergillus fumigatus* Fresenius 2288
Anterior pituitary extracts, diabetogenic action of (Young) 513
Anterior pituitary gland, fractionation of diabetogenic extracts of (Young) 524
Anterior pituitary gland, the glycotropic (anti-insulin) substance of (Young) 1521
Anthocyanins (Price and Sturgess) 1658; (Lawrence, Price, Robinson and Robinson) 1661
Anticalcifying action of cereals, counteraction by fat of (McDougall) 194
Anticoagulants, effect of, on the cholesterol content of normal human plasma (Gardner, Gainsborough and Murray) 1457
Antidermatitis, rat, factor (vitamin B_6), occurrence of, in fish and fish products (Lunde and Kringstad) 708
Antigenic properties of thyroxyl derivatives of proteins, and physiological effects of their antisera (Clutton, Harington and Yuill) 1119
Antigonadotropic factor (antiprolan), preparation of (Zondek, Sulman and Hochman) 1891
Antihaemorrhagic vitamin, estimation of (Almquist, Mecchi and Klose) 1897
Antimony trichloride reaction for vitamin A, spectrographic studies on the (Notevarp and Weedon) 1054
Antimony trichloride reaction for vitamin A (Notevarp and Weedon) 1668
Antiprolan (concentrated antigonadotropic factor) preparation of (Zondek, Sulman and Hochman) 1891
Antisera, production of, to preparations of prolactin (Young) 656
Antrypol and Bayer 205 (Germanin), determination of (Dangerfield, Gaunt and Wormall) 59
Arginase, action of, on carbamidoarginine (Hunter) 826
Arginine, improved determination of (Davenport, Fisher and Wilhelmi) 602
Arnow, L. E. The acid-soluble pigment of red human hair 1281
Arsenate, action of, in glycolysis (Pillai) 1961
Arsenocholine, hepatic oxidation of (Mann, Woodward and Quastel) 1024
Ascorbic acid and haemochromogens, coupled oxidation of (Lemberg, Cortis-Jones and Norrie) 149
Ascorbic acid and phosphatase activity (King and Delory) 1157
Ascorbic acid, effect of, on β-glycerophosphate (Thannhauser, Reichel and Grattan) 1163
Ascorbic acid, effect of, on weight of guinea-pigs (McHenry, Reedman and Sheppard) 1302
Ascorbic acid-glutathione-ascorbic acid oxidase (Kertesz) 621; (Crook and Hopkins) 1356
Ascorbic acid in plant tissues (Reedman and McHenry) 85
Ascorbic acid oxidase, non-specificity of (Snow and Zilva) 1926
l-Ascorbic acid, photochemical decomposition of (Kellie and Zilva) 1561
Ash (*Fraxinus excelsior*), bark of, carbohydrate constituents of (Buston and Hopf) 44
Ashley, J. N. and Raistrick, H. Studies in the biochemistry of micro-organisms. LVI. Luteoleersin and alboleersin; metabolic products of *Helminthosporium leersii* Atkinson. A possible oxidation-reduction system 449
Asparagine, enzymic hydrolysis of (Damodaran and Narayanan) 2105
Aspartase II (Gale) 1583
Aspergillus fumigatus Fresenius, fumigatin (3-hydroxy-4-methoxy-2:5-toluquinone), a metabolic product of (Anslow and Raistrick) 687
Aspergillus fumigatus Fresenius, spinulosin (3:6-dihydroxy-4-methoxy-2:5-toluquinone) a metabolic product of a strain of (Anslow and Raistrick) 2288
Aspergillus tamarii Kita, metabolism of (Gould) 797
Ayre, C. A. The lysine content of feeding stuffs 1152
Ayyadi, M. A. S. el, *see* Daoud, K. M.

Bacharach, A. L. and Allchorne, E. Investigations into the method of estimating vitamin E. II. Further observations on vitamin E deficiency and implantation 1298
Bacharach, A. L. Investigations into the method of estimating vitamin E. III. The relation between dosage and response to vitamin E 2017
Bacillus subtilis, phosphatases of (Pett and Wynne) 563
Bacteria, polylaevans formed by (Veibel) 1949
Bacteria, enzyme formation and polysaccharide synthesis by (Cooper, Daker and Stacey) 1752
Bacteria, intestinal, of the rat, synthesis of vitamin B_1 by (Abdel-Salaam and Leong) 958
Bacteria, lactic acid, lactic dehydrogenase of (Katagiri and Kitahara) 1654
Bacteria, propionic acid, utilization of carbon dioxide by (Wood and Werkman) 1262

Bacterial cell, living, phosphorylation by (Wiggert and Werkman) 101
Bacterial deamination, factors influencing (Gale and Stephenson) 392; (Gale) 1583
Bacterial phosphatases (Pett and Wynne) 563
Bacterial toxins, effect of, upon some respiratory mechanisms of animal tissues (Wooldridge and Higginbottom) 1718
Bact. coli, activity of *dl*-serine deaminase in (Gale and Stephenson) 392
Bact. coli, aspartase in, and its activation by adenosine and related compounds (Gale) 1583
Bact. coli commune, effect of carbon dioxide on production of succinic acid by (Elsden) 187
Bact. coli, metabolism of adenine compounds by (Stephenson and Trim) 1740
Bact. coli, production of indole by suspensions of (Fildes) 1583
Bact. suboxydans, enzyme system of (Butlin) 508, 1185
Baker, A. Z. and Wright, M. D. The vitamin B_1 content of foods. II. Additional values 2156
Baker, Z. Studies on the inhibition of glycolysis by glyceraldehyde 332
Baldwin, E. Biochemistry of the electric organs of *Raia clavata* 888
Baldwin, E. On the respiratory metabolism of *Helix pomatia* 1225
Balson, E. W. and Lawson, A. The potentiometric determination of polypeptides and amino-acids. III. The titration of amino-acids and peptides in the presence of sugars 230
Bark of ash (*Fraxinus excelsior*), carbohydrate constituents of (Buston and Hopf) 44
Barrie, M. M. O. The effect of vitamin E deficiency on the rat. I. Duration of gestation 1467
Barrie, M. M. O. The effect of vitamin E deficiency on the rat. II. Lactation 1474
Barrie, M. M. O. Vitamin E deficiency in the rat. III. Fertility in the female 2134
Bartlett, S., Henry, K. M., Kon, S. K., Osborne, L. W., Thompson, S. Y. and Tinsley, J. The effect of different methods of drying on the biological value and digestibility of the proteins and on the carotene content of grass 2024
Bayer 205 (Germanin) and Antrypol, determination of (Dangerfield, Gaunt and Wormall) 59
Beall, D. The isolation of progesterone and 3:20-*allo*pregnanolone from ox adrenals 1957
Bell, D. J. Wood cellulose. V. "Trimethylated" cellulose from Thiriena pulp 699
Benzene, muconic acid as a metabolic product of (Drummond and Finar) 79
3:4-Benzpyrene, elimination of, from the mouse (Chalmers) 271
Berenblum, I. and Chain, E. Studies on the colorimetric determination of phosphate 286
Berenblum, I. and Chain, E. An improved method for the colorimetric determination of phosphate 295
Bergel, F. and Todd, A. R. Note on two derivatives of oestrone 2145
Bergmann, E. *see* Zondek, B.
Betabacterium vermiformé (Ward-Meyer), a polysaccharide produced from sucrose by (Daker and Stacey) 1946
Betacoccus arabinosaceous haemolyticus, dextran produced from sucrose by (Stacey and Youd) 1943
Bhagvat, K. and Richter, D. Animal phenolases and adrenaline 1397
Biochemistry of micro-organisms (Ashley and Raistrick) 449; (Anslow and Raistrick) 687, 803, 2288
Biochemistry of silicic acid (King and Roman) 2283
Biological value and digestibility of proteins, effect of different drying methods on (Bartlett, Henry, Kon, Osborne, Thompson and Tinsley) 2024
Bird malaria, action of cinchona and other alkaloids in (Buttle, Henry, Solomon, Trevan and Gibbs) 47
Blauth-Opieńska, J. *see* Truszkowski, R.
Blood-clotting method, curative, determination of vitamin K by the (Dam and Glavind) 1018
Blood clotting, nitrogen partition in (Jaques) 1181
Blood, concentration of coenzyme-like substance in, following administration of nicotinic acid (Kohn) 2075
Blood, determination of fructose in (Herbert) 815
Blood, estimation of vitamin B_1 in (Sinclair) 2185
Blood lipoids of the lactating cow, effect of inanition on (Smith) 1856
Blood of ewes and their new-born lambs, sugar and total ketone content of (Snook and Godden) 2037
Blood phosphorus, level of, in the hen, gonadotropic hormone and (Laskowski) 1176
Blood plasma, human, electrophoresis of (Stenhagen) 714
Blood red corpuscle, nature of haemoglobin in (Adams) 646
Blood serum proteins of normal animals (Hewitt) 1540
Blood stream, persistence of Bayer 205 in, after injection into animals (Dangerfield, Gaunt and Wormall) 59
Blood sugar and blood chloride changes in thyroidectomized rats following exposure to various damaging agents (Selye) 2071
Bodansky, M., Herrmann, C. L. and Campbell, K. Utilization of polyglycerol esters 1938
Bone marrow, metabolism of (Orr and Stickland) 567
Bone, phosphoesterase of (Gulland and Jackson) 590
Booth, V. H. The xanthine oxidase-aldehyde system 503
Booth, V. H. and Green, F. E. A wet-crushing mill for micro-organisms 855
Booth, V. H. *see also* Roughton, F. J. W.
Borogluconate, calcium, nature of (Macpherson and Stewart) 76
Boswell, J. G. The biochemistry of dry-rot in wood. III. An investigation of the products of the decay of pine wood rotted by *Merulius lachrymans* 218

Boswell, J. G. The constitution of certain nut-shells. II. The pericarp of *Corylus avellana* (filbert, cob, Barcelona or hazel nut) 986
Boyland, E. Experiments on the chemotherapy of cancer. I. The effect of certain antibacterial substances and related compounds 1207
Boyland, E. and Boyland, M. E. Studies in tissue metabolism. XI. The action of tumour slices and extracts on different carbohydrates 321
Boyland, E. and Mawson, E. H. Experiments on the chemotherapy of cancer. II. The effect of aldehydes and glucosides 1982
Boyland, E. and Mawson, E. H. The conversion of colchicine into colchiceine 1204
Boyland, E. and Mawson, E. H. Changes in the livers of mice after administration of 3:4:5:6-dibenzcarbazole 1460
Boyland, M. E. *see* Boyland, E.
Brain, effects of anaesthetics and convulsants on lactic acid content of (Stone) 1908
Brain, acetylcholine formation in, *in vitro* (Mann, Tennenbaum and Quastel) 243
Brain, pyruvate oxidation in (Long) 1711
Brown, A. W. A. The nitrogen metabolism of an insect (*Lucilia sericata* Mg.). I. Uric acid, allantoin and uricase 895
Brown, A. W. A. The nitrogen metabolism of an insect (*Lucilia sericata* Mg.). II. Ammonia and other metabolites 903
Bruce, H. M. and Phillips, G. E. The effect of excess of vitamins A, B_1 and C on the assay of vitamin D and of excess vitamin D on the assay of vitamin A 1
Bryan, W. L. *see* Mason, K. E.
Bryant, S. A. *see* Campbell, W. G.
Buffers, catalytic effect of, on the reaction $CO_2 + H_2O \rightleftharpoons H_2CO_3$ (Roughton and Booth) 2049
Bushy Stunt virus protein, physical properties of (McFarlane and Kekwick) 1607
Buston, H. W. and Hopf, H. S. Note on certain carbohydrate constituents of the bark of ash (*Fraxinus excelsior*) 44
Butlin, K. R. The enzyme system of *Bact. suboxydans*. I. Variation of aerobic activity with age of culture 508
Butlin, K. R. Enzyme system of *Bact. suboxydans*. II. Effect of acids and *p*H 1185
Buttle, G. A. H., Dewing, T., Foster, G. E., Gray, W. H., Smith, S. and Stephenson, D. The action of substances allied to 4 : 4′-diaminodiphenylsulphone in streptococcal and other infections in mice 1101
Buttle, G. A. H., Henry, T. A., Solomon, W., Trevan, J. W. and Gibbs, E. M. The action of the cinchona and certain other alkaloids in bird malaria. III 47

Calcium borogluconate, nature of (Macpherson and Stewart) 76
Calcium in rat urine (Truszkowski, Blauth-Opieńska, Dobrowolska and Iwanowska) 1293
Calcium utilization, effect of body stores on the efficiency of (Rottensten) 1285
Callow, N. H., Callow, R. K. and Emmens, C. W. Colorimetric determination of substances containing the grouping $—CH_2.CO—$ in urine extracts as an indication of androgen content 1312
Callow, N. H. and Callow, R. K. The isolation of androsterone and *trans*dehydroandrosterone from the urine of normal women 1759
Callow, R. K. *see* Callow, N. H.
Campbell, K. *see* Bodansky, M.
Campbell, W. G., McGowan, J. C. and Bryant, S. A. The chlorine-sodium sulphite colour reaction of woody tissues. II. The bearing of the colour reaction on the constitution of hardwood lignin 2138
Campbell, W. G. and Swann, G. The bleaching action of alkaline hydrogen peroxide on wood 702
Cancer, chemotherapy of (Boyland) 1207; (Boyland and Mawson) 1982
Capon comb growth hormone in urine, estimation of (Dingemanse and Laqueur) 651
Carbamidoarginine, action of arginase upon (Hunter) 826
Carbohydrate and fat metabolism of yeast (Macleod and Smedley-Maclean) 1571
Carbohydrate constituents of the bark of ash (*Fraxinus excelsior*) (Buston and Hopf) 44
Carbohydrate metabolism of certain bacteria, polylaevans formed by (Veibel) 1949
Carbohydrates, action of tumour slices and extracts (Boyland and Boyland) 321
Carbohydrates in proteins (Neuberger) 1435
Carbon dioxide, catalytic effect of buffers on hydration of (Roughton and Booth) 2049
Carbon dioxide, effect of, on production of succinic acid by *Bact. coli commune* (Elsden) 187
Carbon dioxide, utilization of, by propionic acid bacteria (Wood and Werkman) 1262
Carnosine, anserine and some related compounds, titration constants of (Deutsch and Eggleton) 209
Carotene content of grass, effect of different drying methods on (Bartlett, Henry, Kon, Osborne, Thompson and Tinsley) 2024
Carotenoid, gazaniaxanthin, a new (Schön) 1566
Carotenoids, isomerization of (Zechmeister and Tuzson) 1305
Caseinogen and myoglobulin, interaction of haemopoietin and pepsin with (Jones, Grieve and Wilkinson) 665
Casein preparations, influence of, in riboflavin-deficient diets upon the appearance of cataract (Day and Darby) 1171
Catalase, from horse liver, preparation and properties of (Agner) 1702
Catalytic effect of buffers on the reaction $CO_2 + H_2O \rightleftharpoons H_2CO_3$ (Roughton and Booth) 2049
Cataract, influence of different casein preparations in riboflavin-deficient diets upon the appearance of (Day and Darby) 1171
Catatorulin test for vitamin B_1 (Peters) 2031
Cation permeability of erythrocytes (Davson and Danielli) 991
Cations, permeability of "ghosts" to (Davson and Ponder) 756
Cell, living bacterial, phosphorylation by (Wiggert and Werkman) 101

Cell volume and potassium content of centrifuged erythrocytes (Crabtree and Maizels) 74
Cellulose, decomposition of, by *Cytophaga* (Walker and Warren) 31
Cellulose, wood (Bell) 699
Cereals, counteraction by fat of the anti-calcifying action of (McDougall) 194
Chain, E. *see* Berenblum, I.
Chalmers, J. G. The elimination of 3:4-benzpyrene and other polycyclic hydrocarbons from the mouse 271

Veibel, S. Polylaevans formed by the carbohydrate metabolism of certain bacteria 1949
Venoms, snake, phosphoesterases of (Gulland and Jackson) 590
Verdohaematin, chemical mechanism of the oxidation of protohaematin to (Lemberg, Cortis-Jones and Norrie) 171
Virus protein, Bushy Stunt, physical properties of (McFarlane and Kekwick) 1607
Virus, tobacco mosaic, disintegration of, with sodium dodecyl sulphate (Sreenivasaya and Pirie) 1707
Vitamin, antihaemorrhagic, estimation of (Almquist, Mecchi and Klose) 1897
Vitamin tests, simplification of (Lindholm, Laursen and Morgan) 308
Vitamin A and factor A_2, distribution of (Edisbury, Morton, Simpkins and Lovern) 118
Vitamin A and the thyroid (Logaras and Drummond) 964
Vitamin A, antimony trichloride reaction for (Notevarp and Weedon) 1668
Vitamin A content of ling liver oil (Shorland) 488
Vitamin A, determination of, with the photoelectric colorimeter (Dann and Evelyn) 1008
Vitamin A in the liver, conditions influencing storage of (Thorbjarnarson and Drummond) 5
Vitamin A, spectrographic studies on the antimony trichloride reaction for (Notevarp and Weedon) 1054
Vitamin A, variation of the extinction coefficient of, with solvent (Gillam and el Ridi) 820
Vitamin A_1 and A_2 contents of mammalian and other animal livers (Gillam) 1496
Vitamin A_2?, 693 mμ chromogen, of fish liver oils (Gillam, Heilbron, Jones and Lederer) 405
Vitamin A_2, physico-chemical and biochemical study of (Lederer and Rathmann) 1252
B-Vitamins, water-soluble (Edgar, el Sadr and Macrae) 2200, 2207 and 2225
B-Vitamins, water-soluble, other than aneurin (vitamin B_1), riboflavin and nicotinic acid required by the pig (Chick, Macrae, Martin and Martin) 2207
Vitamin B complex in fish and fish products (Lunde and Kringstad) 708
Vitamin B complex in rats (Lunde and Kringstad) 712
Vitamin B_1 and cocarboxylase in animal tissues (Ochoa and Peters) 1501
Vitamin B_1 and pyruvate metabolism by *Staph. aureus* (Hills) 383
Vitamin B_1, catatorulin test for (Peters) 2031
Vitamin B_1 content of foods (Baker and Wright) 2156

Vitamin B_1, improvements in the use of the formaldehyde azo reaction for (Kinnersley and Peters) 1516
Vitamin B_1 in blood, estimation of (Sinclair) 2185
Vitamin B_1, preparation of crude cocarboxylase from, by yeast (Kinnersley and Peters) 697
Vitamin B_1, relation of, to cocarboxylase (Lipschitz, Potter and Elvehjem) 474
Vitamin B_1, synthesis of, by intestinal bacteria of the rat (Abdel-Salaam and Leong) 958
Vitamin B_1 tests on rats, half weekly instead of daily doses in (Lindholm, Laursen and Morgan) 308
Vitamin B_2 complex (Harris) 1479
Vitamin B_6 in fish and fish products (Lunde and Kringstad) 708
Vitamin C and adrenaline, relation between (Daoud and el Ayyadi) 1424
Vitamin C studies in the rat (Svirbely) 467
Vitamin D, effect of excess of vitamins A, B_1 and C on assay of (Bruce and Phillips) 1
Vitamin E deficiency in the rat (Barrie) 1467, 2134
Vitamin E, method of estimating (Bacharach and Allchorne) 1298; (Bacharach) 2017
Vitamin E, standardization of the rat for bioassay of (Mason and Bryan) 1785
Vitamin K, determination of, by the curative blood-clotting method (Dam and Glavind) 1018
Vitamin K in the plant (Dam and Glavind) 485
Vitamins A, B_1 and C, effect of excess of, on assay of vitamin D (Bruce and Phillips) 1
Vitamins A and D, stability of (Robinson) 807
Vitamins, interrelations of (Collett and Eriksen) 2299
